www.rioxoris.it

Rebuild of customer website (in Italian):

<http://ilariageologa.epizy.com>

Personal Profile:

I am a driven individual who has successfully run my own beauty business and is now looking to transition into web development. I have spent the last 2 years studying web development using various online resources passing multiple Codecademy, FreeCodeCamp, Udemy classes including building a website from Scratch. I am comfortable coding in HTML, CSS, Bootstrap, React, and JavaScript, good knowledge of Git Bash Command line and GitHub. My understanding of these is currently displayed in my business website (link above) which originally started as a basic HTML website and is now a detailed website utilizing HTML, CSS, Bootstrap, and JavaScript. The full range of my skill set is also visible on my portfolio website.

I have excellent interpersonal, written, and oral communication skills and strong attention to detail gained through study and employment to date, which has developed along with a proven ability to work both in a team and individually.

Key Skills

- **HTML** – Able to effectively utilise all the aspects to set up a basic website before further development using the below languages and I can implement a markup based pattern to enable CSS, Bootstrap etc to be used.
- **CSS** – Advanced Styling skills to create attractive and effective websites that draw the user attention to all key features whilst remaining very pleasing to the eye.
- **Bootstrap** – Able to build agile and responsive websites for any screen devices including mobile and desktop.
- **Command line** – Able to deploy websites and create repositories, navigate through folders and npm.
- **Github** – Previous experience of deploying websites through GitHub using the command line.
- **PHP** – Website currently deployed through basic PHP form so as to be able to receive emails directly from the website.
- **JQuery** - Able to use JQuery functionalities.
- **JavaScript** – Able to use JavaScript interactions or functionality that it's needed to build a website.
- **React** – Able to build a React web application from scratch using reusable components.
- **API** - Able to API third party implementation to a React application.

· **Time Management** – Through my experience as a beauty therapist I have gained excellent time management having to juggle not only multiple clients but also multiple locations and treatments which has taught me to effectively plan my work schedule and time to be able to meet all of these needs.

Business Management – As a small entrepreneur my business success relied on my drive, determination and business acumen, this combined with effective cost management, market analysis and self-promotion has enabled me to manage my business successfully.

· **Self Development** – I continuously look to improve myself learning new skills and actively furthering existing skills so as to make myself a more rounded and able individual.

Passionate of learning and willing to accept any internship available at any condition.

I gained 5 stars customer service skills in whole my career of Senior Beauty Technician, working in 5 stars boutique and hotels receiving important people, managing booking, taking phone calls, and welcoming customers.
